**Mechanical characteristics:**

- Operating temperature: -40°C to +70°C
- Service life: 300,000 operations

**Electrical characteristics:**

- Contact blocks:
  - Ith: 20 A
  - Ui: 630 V
  - Uim: 6 kV
- Operating voltage of LED circuit:
  - 24 V, 48 V (or more with integrated transformer)
- LED: 2 colors (tint on request) or monochrome - 2 LED per color.
- CEM Protection
- LED control: Remote control or driven by the apparatus itself.
- Connection by IP2x or 6.35 mm tabs.

**Standards:**

- Conception: EN 60947-5-1
- Shocks, vibrations: EN 61373
- CEM: EN 50155

**Dimensions:**

- Configuration with 4 electrical contact blocks
