Mechanical characteristics

- Metallic bezel and shaft
- Operating temperature: -25°C + 70°C
- Mechanical service life: 300,000 operations
- Protection: IP 65 on front
- Bern square shaft (other shaft on request)
- Max torque: 10Nm
- Angle 0°/45° (2 positions) or -45°/0°/+45° (3 positions)

Electrical characteristics

- Connector Deutsch 2 pt or 4 pt
- Switch: 24V-110V (+25% - 30%)
- 10 mA to 10A
- Other contact (type and number) on request
- 2 or 3 positions, automatic return to neutral position

Standards

- Conception: EN 60947-5-1
- Application: EN 50155
- Shocks, vibrations: EN 61373
- EMC: EN 50121-3-2
- Environment: EN 60068, EN 60529

Conductor switch for door applications

- Reliable
- Robust
- Front mounting
- Low mounting depth

Bern key Changeover switch

Creating control and signalling solutions for harsh environments
