Encapsulated contact block
- Push buttons
- Emergency stops
- Selector switches

- High-pressure cleaning (front and back water-proof)
- Shock resistance reinforced
- Salt, hydrocarbons and cleaning agent resistance

Standards:
- Conception EN 60947-5-1
- Application EN 50155
- EMC EN 50121-1-2-3
- Fire/Smoke NFF 16 101 / 102
- Shocks, vibrations EN 61373
- Environment EN 60068, EN 60529

Mechanical characteristics:
- Operating temperature: -25°C to +70°C
- Mechanical service life: 300,000 operations
- Protection: IP 65, IP 66, IP 69K (depending configuration)
- Contact block and cable over moulded

Electrical characteristics:
- Ith: 20 A
- Ui: 630 V
- Uim: 6 kV
- Back-sealed connector on request
- Cable Length on request
