

# CREW SWITCH

Crew switch for door applications

- Reliable
- Robust
- Front mounting
- Low mounting depth

## Mechanical/Environmental characteristics:

- Metallic bezel and shaft
- Operating temperature: - 25 °C to +70 °C
- Mechanical service life: 300 000 operations
- Protection: IP 65 on front
- Bem square shaft (other shaft on request)
- Max limit torque: 30 Nm
- 2 positions (0°/45°) or 3 positions (-45°/0°/+45°)

## Standards:

- Conception EN 60947-5-1
- Railway application EN 50155
- Shocks / vibrations EN 61373
- EMC EN 50121-3-2
- Environment EN 60068, EN 60529

## Electrical characteristics:

- Connector Deutsch 2 pt or 4 pt
- Switch: 24 V-110 V (-30 % / +25 %)
- 10 mA to 10 A
- Other contact (type and number) on request
- 2 or 3 positions, automatic return to neutral position
