

ILLUMINATED SWITCHES

Ø 22 switches with illuminated head
2 independent circuits

- Illuminated function
- Electrical contact block
- Transparent handle with color change when switching or remote controlled

Mechanical/Environmental characteristics:

- Operating temperature: - 40 °C to +70 °C
- Service life: 300 00 operations

Standards:

- Conception EN 60947-5-1
- CEM EN 50155
- Shock/vibrations EN 61373

Electrical characteristics:

- Contact blocks: lth 20 A - Ui 630 V - Uim 6 kV
- Operating voltage of LED circuit: 24 V, 48 V (or more with integrated transformer)
- LED: bicolor or monochrome, colors on request
- EMC Protection
- LED control: remote control or driven by the apparatus itself
- Connection by IP2x or 6.35 mm tabs.

Dimensions:

- Configuration with 4 electrical contact blocks
