

Reinforced Sealing

C22 range

- > Waterproof contact blocks for pushbuttons, emergency stop and switches
- > High-pressure cleaning (sealed front and rear)
- > Enhanced impact resistance
- > Resistance to hydrocarbons, salts and detergents

Mechanical characteristics :

- Operating temperature : -25°C to +70°C
- Service life : 300 000 operations
- Protection: IP65, IP66, IP69K (depending on model)
- Molded contact blocks (radial or axial outputs, 1 or 2 cables)
- Overmolded waterproof connectors on request

Standards :

- Conception EN 60947-5-1
- Environment EN 60068, EN 60529,
- Application EN50155
- CEM EN 50121-1-2-3
- Fire/smoke NFF 16 101 / 102
- Shock/vibrations EN 61373

Electrical characteristics :

- Ith : 20A
- Ui : 630 V
- Uim : 6kV
- Connectors on request
- L cable on request
